

Contents

Part I Reducing Human Error Through Situation Awareness, Training, and Simulations	
Toward a Descriptive Measure of Situation Awareness in Petrochemical Refining	3
Tristan Grigoleit, Hector Silva, Mary Ann Burress and Dan Chiappe	
Full Scale Evaluation of How Task-Based Overview Displays Impact Operator Workload and Situation Awareness When in Emergency Procedure Space	15
Zachary Spielman, Rachael Hill, Katya LeBlanc, Brandon Rice, Gordon Bower, Jeffrey Joe and David Powers	
Identifying Macroognitive Function Failures from Accident Reports: A Case Study	29
Peng Liu, Xi Lyu, Yongping Qiu, Juntao Hu, Jiejuan Tong and Zhizhong Li	
A Literature Review on Human Reliability Analysis Techniques Applied for Probabilistic Risk Assessment in the Nuclear Industry	41
Ninotchka Dsouza and Lixuan Lu	
Part II Applying Human Factors: Building Better Processes, Procedures and Organizations in Energy	
Developing a Human Factors Engineering Process for Control Room Upgrades	57
Hanna Koskinen, Jari Laarni, Leena Salo and Paula Savioja	
Defining Expertise in the Electric Grid Control Room	69
Susan Stevens Adams and Francis P. Hannigan	

Measurement Sufficiency Versus Completeness: Integrating Safety Cases into Verification and Validation in Nuclear Control Room Modernization	79
Ronald Boring and Nathan Lau	
 Part III Human Factors in Energy	
Consumer Electric Energy Management Strategies and Preferences in Emergency Demand Response: Results from a Survey	93
Huiyang Li, Haya Salah and Ziang Zhang	
Exploring Observed Cognitive Error Types in Teams Working in Simulated Drilling Environments.	101
Margaret T. Crichton, Scott Moffat and Lauren M. Crichton	
The Human Factor Role in the Reducing of the Power Supply Reliability.	113
Irina Semykina and Eugene Skrebneva	
 Part IV Simulation and Interface Design for Safety Focused Research	
An Overview of the IEEE Human Factors Standard Development Activities—2016	123
David R. Desaulniers and Stephen Fleger	
The Impact of Simulation Display on Nuclear Power Plant Task Error Frequencies	133
Jonathan Harris, Lauren Reinerman-Jones and Grace Teo	
Neuropsychological Aspects Observed in a Nuclear Plant Simulator and Its Relation to Human Reliability Analysis.	145
André Ricardo Mendonça Pinheiro, Eugênio Anselmo Pessoa do Prado, Marcelo Ramos Martins, July Silveira Gomes and Enrique López Droguett	
Framework for Evaluating the Impact of Environmental Conditions on Manual Actions	157
Garill A. Coles, Angela C. Dalton, Kristi M. Branch, Rajiv Prasad, Nancy P. Kohn and Alvah C. Bittner	
A Virtual Reality Based Approach to Improve Human Performance and to Minimize Safety Risks When Operating Power Electric Systems	171
Alexandre Cardoso, Paulo R. Prado, Gerson F.M. Lima and Edgard Lamounier	

**The NRC Human Performance Test Facility: An Approach
to Data Collection Using Novices and a Simplified Environment 183**
Niaiv Hughes, Amy D’Agostino and Lauren Reinerman-Jones

**Using the Human Systems Simulation Laboratory at Idaho National
Laboratory for Safety Focused Research 193**
Jeffrey C. Joe and Ronald L. Boring

Advances in Human Factors in Energy: Oil, Gas, Nuclear and Electric Power Industries

Proceedings of the AHFE 2016 International Conference on Human Factors in Energy: Oil, Gas, Nuclear and Electric Power Industries, July 27–31, 2016, Walt Disney World®, Florida, USA

Cetiner, S.; Fechtelkötter, P.; Legatt, M. (Eds.)

2017, XI, 201 p. 46 illus., 29 illus. in color., Softcover
