

Contents

163	Part I Macroergonomic Systems	
165	The Usage of Simulation Technology for Macroergonomic	
166	Industrial Systems Improvement	3
168	Leszek Pacholski and Pawel Pawlewski	
169	3D Laser Models for the Ergonomic Assessment of the Working	
170	Environment	15
172	Marcin Butlewski, Małgorzata Sławińska and Mateusz Niedźwiecki	
173	A Multi-Criterial Hardware Assessment of the Psychophysical	
175	Capacity of Workers in the Investigation of Fatigue	25
176	Grzegorz Dahlke, Milena Drzewiecka, Marcin Butlewski	
177	and Leszek Pacholski	
179	The Maintenance Management in the Macro-Ergonomics Context	35
180	Małgorzata Jasiulewicz-Kaczmarek, Anna Saniuk	
181	and Tadeusz Nowicki	
182	Agreement for Safety in the Building Sector as a Good Practice	
183	to Improve Safety in the Work Environment	47
185	Jozef Fras, Ilona Olsztyńska and Sebastian Scholz	
186	A Process-Oriented Design Knowledge Management Method	57
188	Biju Yin and Yan Xiong	
190	Part II Social and Occupational Innovation	
192	Caregiver Centered Transfer Aid Designed for Home Care Needs	69
193	Kao-Hua Liu and Chien-Hsu Chen	
194	Employment Opportunities for Mature Age People in the Electrical	
196	Sector in Lodz Voivodeship in Poland	79
197	Aleksandra Polak-Sopińska	

198	A Future Framework of Knowledge-Based Ergonomics Assessment	
200	System at Workplace in Automotive Assembly Plant	93
201	Fazilah Abdul Aziz, Zakri Ghazalli, Nik Mohd Zuki Nik Mohamed	
202	and Amri Isfar	
203	Quality Management in Toy and Children's Furniture	
205	Manufacturing	107
206	Mieczysław Rajkiewicz, Anna Walaszczyk and Zbigniew Wisniewski	
208	Modelling Formation of Attitudes to Change	117
209	Zbigniew Wisniewski, Aleksandra Polak-Sopinska,	
210	Mieczyslaw Rajkiewicz, Malgorzata Wisniewska and Piotr Sopinski	
211	Employment of Persons with Disabilities in Poland:	
212	What Do Small and Micro Enterprise Employers Know?	129
214	Aleksandra Polak-Sopinska, Zbigniew Wisniewski	
215	and Marta Jedraszek-Wisniewska	
216	Part III Modeling and Systems in Occupational Ergonomics	
218	Proposing a Conceptual Model for Examining the Influence	
220	of Individual and Work-Related Factors on Work Ability	145
221	Jacky Y.K. Ng and Alan H.S. Chan	
222	The Participatory Ergonomics in the Design of Safety Systems	
223	in Complex Work Systems	153
225	William German Barón Santoyo	
226	Elements of Workforce Diversity in Japanese Nursing Workplace.	167
228	Yasuyuki Yamada, Motoki Mizuno, Teruko Shimizu, Yuji Asano,	
229	Takumi Iwaasa and Takeshi Ebara	
230	Research on Urban Rail Driver's Mental Workload	
232	Based on Extenics	177
233	Lan-peng Li, Zhi-gang Liu, Hai-yan Zhu and Lin Zhu	
234	Analyzing the Impact that Lack of Supervision Has on Safety Culture	
235	and Accident Rates as a Proactive Approach to Curbing the South	
236	African Railway Industry's High Incident Occurrence Rate	189
238	Sethunya Tau	
240	Part IV Job Satisfaction, Workload and Musculoskeletal Disorders	
241	Video Gaming and Its Implications on the Epidemiology	
242	of Office Work Related Upper Limb Disorders.	201
244	Shao-Sean Yap and Gunther Paul	
246	Occupational Stresses on Employees in Lean Production Systems	215
247	Uwe Dombrowski, Anne Reimer and Stefan Ernst	

248	Customer-Related Stressors and Effects on Burnout:	
250	A Study in Turkey	227
251	Serpil Aytac and Mustafa Aytac	
252	Using Axiomatic Design to Identify the Elements That Affect	
253	the Evaluation of Comfort/Discomfort Perception	235
255	Nicola Cappetti, Alessandro Naddeo, Rosaria Califano	
256	and Mariarosaria Vallone	
257	A Model of Improving Individual Satisfaction in Group	
259	Conversation Based on Estimation of Group Status	249
260	Susumu Kono and Kenro Aihara	
261	The Place of Health Design for Health Promotion: The Pediatrics	
262	Design Process Focus in Humanization at Santa Casa's Hospital	
263	Montes Claros—Brazil	261
265	Janice Gomes Zumba	
266	Prevalence of Work Related Musculoskeletal Disorders	
267	Among the Iranian Working Population in Different Sectors	
269	of Industries	271
270	HA Yousefi, Ehsan Habibi and Hideyuki Tanaka	
271	Causes of Workplace Stress in Textile Industry of Developing	
273	Countries: A Case Study from Pakistan	283
274	Aftab Ahmad, Amjad Hussain, Qasar Wasique Ahmad	
275	and Badar Ul Islam	
276	Quality of Work Life, Depression and Anxiety in Administrative	
278	Staff of an Institution of Higher Education.	295
279	Raquel Gonzalez-Baltazar, Brenda J. Hidalgo-González,	
280	Vanessa I. Rivas-Díaz de Sandi, Silvia G. León-Cortés,	
281	Mónica I. Contreras-Estrada, María G. Aldrete-Rodríguez	
282	and Gustavo Hidalgo-Santacruz	
283	Part V Accidents and Safety	
285	Stimulation of Voluntary Motivation Toward Safety Management	
286	Activities: Activity Inactivation by Mannerism	307
288	Keijiro Katayama and Miwa Nakanishi	
289	Development of a Taxonomy of Human Error Causation of Accidents	
290	Involving Injuries to Hands in the Harnesses Industry	317
292	Rosa Maria Reyes Martinez, Jorge de la Riva Rodriguez,	
293	Rodolfo de la O Escapita, Arturo Wookay	
294	and Araceli Maldonado Macias	

295	Ergonomic Risk Assessment of Sea Fishermen Part I: Manual	
296	Material Handling	325
298	Alessio Silvetti, Elio Munafò, Alberto Ranavolo, Sergio Iavicoli	
299	and Francesco Draicchio	
300	Ergonomic Risk Assessment of Sea Fishermen Part II:	
302	Upper Limb Repetitive Movements	333
303	Alessio Silvetti, Elio Munafò, Alberto Ranavolo, Sergio Iavicoli	
304	and Francesco Draicchio	
305	A Novel to Approach to Quantify the Risk Probabilities	
306	for a Risk Analysis Methodology	341
308	N. Fırat Ozkan and Berna H. Uluta	
309	Methodology of Risk Analysis to Health and Occupational Safety	
310	Integrated for the Principles of Lean Manufacturing	349
312	Eduardo Ferro dos Santos and Letícia dos Santos Nunes	
313	Machine-Man-Task System Approach and Regulatory Standard NR	
315	17—Ergonomics	355
316	Norma de Melo Pinto, Maria Manuela Quaresma	
317	and Kazuo Hatakeyama	
319	Mobbing as a Psycho-social Risk at Work: A Study in Turkey	369
320	Serpil Aytac, Salih Dursun and Ahmet Gokce	
321	Ergonomic Hazards Mapping System (EHMS) for Musculoskeletal	
322	Disorders Detection.	377
324	M.I. Delgado-Bahena, R.A Barrios-Perez, M.R. Contreras-Valenzuela	
325	and R. Lopez-Sesenes	
326	Redesign of Workstation to Reduce the Risk of Wrist Lesion	
327	to Improve Work Conditions in an Industry Focused	
329	on the Assembly of Spark Plug Wire	387
330	D. Gomez-Garcia, R. López-Sesenes, M.R. Contreras-Valenzuela,	
331	A. Martinez-Oropeza and Viridiana Leon-Hernández	
332	Part VI Social and Organizational Factors in Industry	
334	The Relationship Between Sustained Attention and Mindfulness	
336	Among U.S. Active Duty Service Members and Veterans	397
337	Valerie J. Rice and Baoxia Liu	
338	Human and Economic Factors of Long-Distance Commuting	
340	Technology: Analysis of Arctic Practices	409
341	A. Kozlov, S. Gutman, E. Rytova and I. Zaychenko	

342	Analysis of Organizational and Human Factors in the Local	
343	Production Arrangement of the Hotel Chain to Avoid	
344	Social and Environmental Impacts, Case Study	
346	of Maragogi, Alagoas, Brazil	421
347	Eduardo Menezes, Salvador Filho and Edmara Drigo	
348	The Way to Use the Guidelines for Supporting Resilience	
349	Enhancement: From Verifying Effectiveness Using Before-After	
350	Comparison Test Design of Two Fitness Centers	435
352	Naoto Shoji, Takumi Iwaasa, Yutaka Nakajima	
353	and Motoki Mizuno	
354	The Effects of a Trust Violation and Trust Repair in a Distributed	
355	Team Decision-Making Task: Exploring the Affective Component	
356	of Trust	447
358	Corey K. Fallon, April Rose Panganiban, Peter Chiu	
359	and Gerald Matthews	
360	Applying Triangulation Method to Strengthen Validity	
361	of Integrated Balanced Scorecard’s Performance Measurement	
362	Model for Supply Chain’s Actors and Regulators	461
364	Elisa Kusrini, Subagyo and Nur Aini Masruroh
